“Cross-border Patient Registries Initiative” Workshop

In the same event, after the presentation of the ‘Guidelines’, a workshop was carried out with the aim of collecting feedback from the attendees on the work done so far by the PARENT work package 5. The team members focused their presentations on some of the most important topics, such as “Requirements for cross-border use of patient registries”, “Interoperability”, and “Quality of patient registries”.

After the introductory presentations, a general discussion was carried out, from which important feedback was collected, besides a number of useful comments and suggestions that will help planning PARENT's further steps for the preparation of its final deliverables.
